

The European animal medicines industry in figures

In a nutshell

COMPETITIVENESS

1/3 of global market

EMPLOYMENT

Around 50,000 jobs

NUMBER OF COMPANIES

Over 260

of which **SMEs**

Over 110

R&D EXPENDITURE

More than €500 million/year
in research and development

Sales by product category in Europe

 Vaccines, 32.9%

 Parasiticides, 28.3%

 Antimicrobials, 12.2%

 Other, 26.6%

Countries covered include AT, BE, CH, CZ, DE, DK, ES, FR, UK, GR, HU, IE, IT, NL, PL, PT, SK.

**Total European
sales for 2019**

€6.6 Billion

Sales by product category in Europe

Evolution of sales per product category (%) (2012–2019)

Source: CEESA (Executive Animal Health Study Centre www.ceesa.eu)

Sales by animal species

-  Pets, 41.3%
-  Rabbits (non-pet), 0.2%
-  Horses, 2.8%
-  Aquatics (non-pet), 1.7%
-  Livestock (cattle, pigs, sheep), 30.1%
-  Others, 12.4%
-  Poultry & avian, 11.3%

Countries covered include AT, BE, CH, CZ, DE, DK, ES, FR, UK, GR, HU, IE, IT, NL, PL, PT, SK.

Global sales comparison (2019)

North America, 43.2%

Europe, 29.3%

Asia, 12.9%

Latin America, 9.8%

Pacific, 4.8%

The market value of the European animal medicines industry is **3%** of the European human pharmaceutical industry

Animal populations in Europe: farm animals

Laying hens

400m

Pigs 103.1m

Bovines 99.5m

Sheep 97.8m

Goats 94m

The number of farm animals has decreased by **9.91%** in six years (2012–2018)

Source: Eurostat (except laying hens: European Parliamentary Research Service - The EU poultry meat and egg sector)

Animal populations in Europe: pets

Cats

103m

Dogs

85m

Birds

50m

Small mammals 26m

Fish 15m

Reptiles 7.8m

The number of pets has increased by **9%** in six years (2012–2018) to a total of 289 million

Contribution of animal health solutions

Thanks to **comprehensive EU control measures** and **poultry vaccination**, human salmonella cases in the EU have **fallen by almost 50% since 2004**. Source: EFSA

Successful animal **vaccination programmes** and the **EU pet passport system** mean that today the vast majority of EU member states are **now rabies-free**.

Source: ECDC

Contribution of animal health solutions

The introduction of **vaccines** against furunculosis in **salmon farming** has **reduced** the need to use **antibiotics** in Norwegian aquaculture by **99%**. Source: WHO

.....

Better **herd management**, including **animal health and feed practices** can help reduce livestock emissions up to **30%**.
